# Nuclear Africa 2019

**Nuclear Africa**

**27-29 MARCH 2019  
SOUTH AFRICA**

**Theme:**  
*Expansion of  
Nuclear Technology in Africa.*

Africa is becoming a **FUTURE POWERHOUSE**  
of Nuclear Technology

**VENUE: RITSAKO LODGE  
DINOKENG RESERVE, PRETORIA**

**The Bush Lodge - Where Animals Roam**

Worldwide, nuclear technology has been developing for over half a century. One should ask: What is nuclear technology? The obvious answer which springs to mind is: nuclear power. Nuclear power has proven itself to be the safest, cheapest and greenest power that exists on the planet.

But the annual Nuclear Africa 2019 gathering will be focusing on additional wider issues such as nuclear medicine, which today is making huge strides in cancer diagnosis and treatment. A number of African countries, including South Africa, are on the nuclear path of cancer treatment.

**The Conference consists of:  
TWO DAY CONFERENCE**

..... **R8 625.00 (incl VAT) \$550**

**NETWORKING FUNCTION (3rd Day)**
